PICKERING NUCLEAR'S UNIT 5 OFF FOR MAINTENANCE OUTAGE

[Pickering]: Unit 5 at Pickering Nuclear has been taken off line to allow testing and maintenance on its turbine generator.

Pickering units 4, 6, and 8 are all operating at or close to full power, delivering about 1,500 megawatts of electricity to the Ontario grid. Units 1 and 7 are in maintenance outages.

Ontario Power Generation Inc. is an Ontario-based electricity generation company whose principal business is the generation and sale of electricity in Ontario. Our focus is on the efficient production and sale of electricity from our generation assets, while operating in a safe, open and environmentally responsible manner.
