ONTARIO POWER GENERATION'S PICKERING UNIT 1 ON OUTAGE

[Pickering, ON]: On May 6, Pickering Unit 1 came off line for a maintenance outage after operating for over 40 days.

This maintenance outage will include work on the Unit's fuel handling equipment..

Pickering Unit 4 , 5, 6 and 8 are currently operating near 100 per cent full power, delivering about 2,000 MW of electricity to the Ontario electricity grid. Unit 7 continues on a maintenance outage.

Ontario Power Generation Inc. is an Ontario-based electricity generation company whose principal business is the generation and sale of electricity in Ontario. Our focus is on the efficient production and sale of electricity from our generation assets, while operating in a safe, open and environmentally responsible manner.
