## **ONTARIO POWER GENERATION'S DARLINGTON UNIT 4 ENTERS BRIEF OUTAGE**

[Clarington, ON]: On November 10, Darlington Unit 4 was taken off-line briefly to inspect and maintain part of the Unit's control system. It returned to service on November 12. The Unit was taken off-line again on November 13 to inspect and maintain part of the Unit's boiler system and is expected to return to service in a few days.

Darlington Units 1 and 3 are currently operating at 100 per cent full power delivering about 1800 MW of electricity to the Ontario electricity grid.

Darlington Unit 2 is on a planned maintenance outage.

Ontario Power Generation Inc. is an Ontario-based electricity generation company whose principal business is the generation and sale of electricity in Ontario. Our focus is on the efficient production and sale of electricity from our generation assets, while operating in a safe, open and environmentally responsible manner.
