## **ONTARIO POWER GENERATION'S PICKERING B UNIT 7 ENTERS BRIEF OUTAGE**

[Pickering, ON]: On September 23, Pickering's Unit 7 was taken off line for a brief maintenance outage.

Pickering's B Units 5 and 8 are currently operating at 100 per cent full power delivering about 1000 MW of electricity to the Ontario electricity grid. Pickering B Unit 6 is on a planned maintenance outage and Pickering A Units 1 and 4 are preparing for return to service from a planned outage to upgrade a back-up electrical supply system.

Ontario Power Generation Inc. is an Ontario-based electricity generation company whose principal business is the generation and sale of electricity in Ontario. Our focus is on the efficient production and sale of electricity from our generation assets, while operating in a safe, open and environmentally responsible manner.
