

# QUARTERLY UPDATE TO THE COMMUNITY

Across Ontario Power Generation (OPG) and here at Darlington Nuclear, we're committed to continuing to provide the people and businesses of Ontario with clean, safe, and reliable electricity.

Over the past few months, since becoming Darlington's Senior Vice President, I've had the privilege of meeting many community members, and have been able to confirm my personal commitment, and that of the entire Darlington team, to safe operation.

At this time of year, I am reminded of an important role that our company has here in Durham Region and in other host communities across our province – the role of community builder.

At Darlington Nuclear, this past year we helped support more than 100 local community, environmental and educational opportunities for youth. It's part of our commitment to sustainability and follows the lead of our employees who volunteer countless hours with community organizations.

Last year, OPG and its employees contributed nearly \$2 million to Ontario charities as part of the company's annual Charity Campaign, with \$857,000 of that coming from employees in Durham Region.

For more information on OPG in our community, please visit [opg.com](http://opg.com).

Stu Seedhouse, Senior Vice President, Darlington Nuclear

## HIGHLIGHTS FROM DARLINGTON NUCLEAR

- Darlington employees achieved four million hours without a lost-time injury.
- OPG submitted the Environmental Impact Statement and the application for the "Licence to Prepare Site" for new units to the federal authorities.
- OPG was recognized in 2009 with the Zero Quest Gold Award from the Electrical and Utilities Safety Association. The award recognizes a sustained high level of safety management and safety performance for four consecutive years. OPG is the only company to reach this milestone.
