OVERVIEW OF OPG

1.0 PURPOSE
This evidence provides an overview of OPG, including a summary of its mandate, objectives, key assets, corporate governance and organization. OPG’s nuclear and regulated hydroelectric businesses are described in Ex. A1-4-2 and Ex. A1-4-3, respectively.

2.0 CORPORATE OVERVIEW
OPG is an electricity generation company whose principal business is the generation and sale of electricity in Ontario. OPG’s focus is on the effective stewardship of generation assets owned by the people of Ontario. This is achieved by focusing on: (i) the safe, reliable operation of its facilities including the avoidance of harm to employees, contractors, and the public at large, (ii) the management of these facilities by maintaining a strong focus on delivering value for money and (iii) adhering to the highest standards of corporate citizenship, including a commitment to environmental and social objectives.

As part of its business, OPG owns and operates both regulated and unregulated generation facilities. OPG’s regulated generation facilities consist of two nuclear generating stations with a total generation capacity of 6,606 MW and 54 regulated hydroelectric generating stations with a total generation capacity of 6,425 MW, for a combined regulated generation capacity of 13,031 MW.

While not regulated facilities, the Bruce A and B Generating Stations have an impact on the calculation of the payment amounts. These stations are owned by OPG and leased on a long-term basis to Bruce Power L.P. The revenues from the lease, net of costs, are used to reduce the payment amounts for the regulated facilities.

The locations of the regulated facilities and other OPG facilities are illustrated on the map provided as Attachment 1.
In 2015, OPG’s regulated facilities generated a total of 74.7 TWh, representing approximately 55 per cent of the total electricity generated in the Province of Ontario (137.0 TWh). The nuclear facilities generated 44.5 TWh and the regulated hydroelectric facilities generated 30.2 TWh, or approximately 60 per cent and 40 per cent of OPG’s total regulated energy production, respectively. Further details on the regulated facilities are provided in Ex. A1-4-2 and Ex. A1-4-3.

In addition to generating electricity for sale to the IESO-administered market, OPG’s regulated assets sell ancillary products to the IESO markets, including operating reserve, voltage control/reactive support, black start capability, and automatic generation control. Revenues associated with sales of ancillary products from the regulated facilities are discussed in Exhibit G - Other Revenues.

3.0 OPG GOVERNANCE AND ORGANIZATION

OPG’s Board of Directors (“OPG Board”) is appointed by the shareholder. The OPG Board currently has 15 members, who bring substantial expertise in managing large businesses, managing and operating nuclear stations, managing capital-intensive companies, and overseeing regulatory, government, and public relations. The OPG Board has established the following committees to focus on areas critical to OPG’s success:

- **Audit and Risk Committee**: The Audit and Risk Committee is responsible for the integrity, quality and transparency of OPG’s financial information, the adequacy of the financial reporting process, the systems of internal controls, and OPG’s related principles, policies and procedures which management has established. The Committee is responsible for the oversight of the Company’s regulatory filings, financial statements, and other annual disclosures. The Committee also provides oversight of the performance of the OPG Pension Fund, the Used Fuel Segregated Fund and the Decommissioning Segregated Fund. Additionally, the Committee is responsible for the oversight of enterprise-wide risk and associated risk management activities. The Committee reviews management’s assessment of the principal risks to
achieving the Company’s strategic and business plan objectives and the strategies for monitoring and responding to these risks.

The Committee also oversees the OPG Board’s governance program and practices to ensure alignment with corporate governance best practices, including annually reviewing and assessing the OPG Board’s system of corporate governance.

- **Generation Oversight Committee:** The Generation Oversight Committee is responsible for the oversight of safe, secure and efficient operations of OPG’s generating facilities. The Committee is responsible for reviewing significant operational, transactional and strategic risks against business plan objectives. Additionally, the Committee oversees the development, risk management, financing and execution of new and existing generation projects. The Committee is responsible for reviewing the results of assessments by regulators and/or independent oversight organizations, including proposed remediation programs. The Committee ensures that OPG’s generating facilities comply with nuclear, health and safety, and environmental laws and regulations.

- **Darlington Refurbishment Committee:** The Darlington Refurbishment Committee is responsible for the oversight of the Darlington Refurbishment Project. The Committee is responsible for retaining external independent oversight advisors and reviewing results and/or major findings from external assessments and management’s proposed remediation programs and plans. The Committee monitors progress of the refurbishment project against the final approved execution scope, budget and schedule as well as project risks and associated mitigation plans.
OPG’s senior management team is led by OPG’s President and CEO, who is also a member of the OPG Board. The leaders of the nuclear and regulated hydroelectric business units report to the President and CEO. The organization and management of the nuclear and the regulated hydroelectric business units, which are the subject of this Application, are described in greater detail in Ex. A1-4-2 and Ex. A1-4-3, respectively.

Also reporting directly to the President and CEO are the various functions that provide support to the operational business units. These include Business and Administrative Services, Finance, People and Culture, and Law. Please refer to the organizational chart provided in Ex. A1-5-1 for further detail.

4.0  OPG’s MANDATE AND OBJECTIVES

In addition to being governed by the various policies in areas such as safety, Code of Business Conduct, disclosure and the environment, OPG is subject to the terms of a Memorandum of Agreement between the Shareholder and OPG, dated July 17, 2015 (the “Memorandum of Agreement”), which sets out the Shareholder’s expectations regarding OPG’s mandate, governance framework, generation performance and investment, financial framework and communications. The Memorandum of Agreement confirms that OPG will operate as a business enterprise with a commercial mandate, governed in principle and at first instance by an independent Board of Directors. The Memorandum of Agreement is provided in Attachment 2.

The Memorandum of Agreement further states that the Shareholder may at times direct OPG to undertake special initiatives, which will be communicated as written declarations by way of a Unanimous Shareholder Agreement, or Declaration, in accordance with section 108 of the Business Corporations Act (Ontario) and made public. Copies of the shareholder directives that OPG has received are posted on OPG’s website at:
