Please note:
- 2010-2012 headcount numbers are a forecast estimate of regular staff headcount developed in conjunction with business planning. Forecast FTEs are the planning metric in the Nuclear business plan approved by the OPG Board of Directors (Ex. F2-T1-S1 Attachment 1, page 19), not headcount forecasts.
- 2007-2009 FTEs are a proxy value, calculated as the average of actual month-end headcounts in a given year. This is a relatively imprecise measure of historic FTEs.
- 2007 Actual FTEs have been restated from EB-2007-0905 EX. F2-T2-S1 Table 1 to exclude refurbishment, new build and security staff. This is consistent with the basis for EB-2010-0905, and all other data presented in the table above.
