

Join us at the Darlington Refurbishment Open House!

Come learn about Canada's largest clean energy project.

Get a virtual reality view inside a nuclear building airlock, take photos in front of the first ever, full-scale reactor mock-up, and meet experts involved from across the province who are keeping our world-leading project on time, and on budget.

When: Saturday, November 18,
from 10 a.m. to 4 p.m.

Where:
Darlington Energy Complex,
1855 Energy Drive, Courtice

Take a bus tour around the station, and learn more about how the Darlington Refurbishment project will contribute to Ontario's economy, create thousands of jobs, and generate 30 more years of safe, reliable, clean power.
