Subject: Upcoming public Commission hearing and offer of participant funding

A public Commission hearing will be held on June 9-10, 2021 to consider an application from Ontario Power Generation Inc. (OPG) to renew its power reactor site licence for the Darlington New Nuclear Project (DNNP). The licence expires in August 2022. OPG is proposing to locate the DNNP on its Darlington Nuclear Generating Station site in the Municipality of Clarington, approximately 65 km east of Toronto, Ontario.

The current licence authorizes OPG to prepare the Darlington Nuclear site for the potential future construction and operation of a new nuclear generating station. A separate application and licensing process, with public participation, will be necessary should OPG decide to go forward with the construction and operation of new nuclear reactors within the Darlington site.

Requests to intervene in the public hearing must be filed with the Commission Secretariat by April 26, 2021.

In advance of the public hearing, the CNSC is making available up to \$100,000 in funding through its Participant Funding Program. The deadline for submitting an application for funding is November 30, 2020.

Subject: Administrative changes to four regulatory documents

Four CNSC regulatory documents have been updated as a result of the International Atomic Energy Agency's publication of SSR-6, Regulations for the Safe Transport of Radioactive Material, 2018 edition. Those regulations came into effect in Canada on July 1, 2020.

The following regulatory documents have been updated to reflect this administrative change:

- REGDOC-1.5.1, Application Guide: Certification of Radiation Devices or Class II Prescribed Equipment, Version 1.1
- REGDOC-2.4.3, Nuclear Criticality Safety, Version 1.1

- REGDOC-2.5.7, Design, Testing and Performance of Exposure Devices, Version 1.1
- REGDOC-2.12.3, Security of Nuclear Substances: Sealed Sources and Category I, II and III Nuclear Material, Version 2.1

For more information: <https://www.nuclearsafety.gc.ca/eng/acts-and-regulations/regulatory-documents/index.cfm>

For information on the Regulations for the Safe Transport of Radioactive Material, 2018 edition: https://www-pub.iaea.org/MTCD/Publications/PDF/PUB1798_web.pdf (PDF, 190 pages, 1.7 MB)

Subject: Public invited to comment on draft REGDOC-1.1.2, Version 2

The public is invited to comment on draft REGDOC-1.1.2, Licence Application Guide: Licence to Construct a Reactor Facility, Version 2. The draft document sets out requirements and guidance on submitting a formal application to the CNSC to obtain a licence to construct a reactor facility in Canada. It also identifies the information that should be included in the application. The public has until January 13, 2021 to provide comments.

New to the consultation process! In an effort to modernize, the CNSC has launched an e-consultation platform to make it easier for the public, Indigenous groups and stakeholders to participate.

For more information on the draft regulatory document: <http://www.nuclearsafety.gc.ca/eng/acts-and-regulations/regulatory-documents/history/regdoc1-1-2.cfm>
