Title: ENVIRONMENTAL POLICY

Policy Statements: Ontario Power Generation (OPG) shall meet compliance obligations, including any environmental commitments that it makes, with the objective of exceeding these compliance obligations where it makes business sense.

Requirements: OPG shall establish an environmental management system and maintain registration for this system to the ISO 14001 Environmental Management System standard.

OPG shall work to prevent or mitigate adverse impacts on the environment, with a long-term objective of continual improvement in its environmental management system and its environmental performance.

OPG shall execute its Climate Change Plan and strive to achieve the milestones and goals therein.

OPG shall manage its sites in a manner that strives to maintain, or enhance where it makes business sense, significant natural areas and associated species of concern. OPG will work with its community partners and Indigenous nations and communities to support regional ecosystems and biodiversity through science-based habitat stewardship. Where disruption is required, OPG shall take reasonable steps to manage the residual impact to these areas and species.

OPG shall set environmental objectives as part of its annual business planning process. Performance against these environmental objectives will be monitored and associated documented information will be maintained.

OPG shall communicate its environmental performance to employees, governments, local communities, Indigenous nations and communities, and other stakeholders.

Accountabilities: The Chief Operations Officer is accountable for the development and maintenance of an environmental management system and other environmental initiatives that achieve the requirements of this policy, including reporting to the Board on OPG's overall environmental performance.

The Operating Unit and Function leaders are accountable for the effective implementation of the environmental management system as applicable within their respective organizations and for reporting on their environmental performance. They are also responsible for providing timely notification of any significant environmental event in accordance with the approved procedures.

Employees are accountable for environmental performance and compliance within the scope of their accountabilities.

Sponsoring Unit: Environment, Health and Safety **Approval:** Board of Directors

Effective Date: December 6, 2024
